

UMH HEXAGON GOLD

WATER OF SPRING WATER QUALITY

UMH Hexagon Gold is a cost-effective, easy-to-install water-vitalising device that can be quickly fitted under most kitchen sinks, in medical practices, offices or commercial kitchens, or in the shower.

Following standard filtration, the water is energised, given a hexagonal structure and made optimally bioavailable by a newly developed Hexagon Gold unit, which contains ten handcrafted glass vials forming a highly stable energy field. The selection of cartridges also took into account water that may have undergone UV treatment.

ADVANTAGES

Natural, hexagonal spring water quality
Improved cellular water and nutrient absorption
Restructuring of UV-treated water
Stable bio-energies
Noticeably softer and fresher taste
No electricity, no chemicals, no magnets
Environmentally friendly & resource-efficient
Neutralisation of pollutant frequencies

TECHNICAL DATA:

Length in mm:	114
Diameter in mm:	55
Flow rate in litres/min:	21 litres
Weight in kg:	1.2 kg
Connections:	1/2", 3/8"
Water pressure	max. 10 bar
Temperature	up to 95°C

UMH WARRANTY

5-YEAR WARRANTY

on functionality and device technology

You can find details of the warranty at:
<https://umh.at/en/warranty-conditions/>

AREAS OF APPLICATION

Cold-water connection in the kitchen, office, surgery and in the shower. Installation downstream of filter and osmosis systems. Protect from frost.

Wasser auf höchstem Niveau.
